

DIRECT RENTING LTD

Corporate Tenancy & Property Management
for Landlords

Long-term, fully managed company-let solutions.

WHO WE ARE

Professional Corporate Tenancy for UK Landlords

Direct Renting Ltd provides long-term, fully managed corporate tenancies for landlords across the UK.

We work with teams from construction, engineering, rail and utilities who need reliable accommodation for medium to long projects.

Rather than dealing with multiple tenants and short-term turnover, landlords partner with us on a fixed-term company-let agreement, gaining stability and a single professional point of contact.

With Direct Renting Ltd, you retain full ownership of your property while we handle the day-to-day operation and occupancy.

STABILITY AND RELIABILITY

Working with Direct Renting Ltd gives landlords a stable, long-term tenancy with a single professional tenant.

You no longer deal with frequent turnover, void periods or uncertainty — we provide a consistent, structured occupancy model that protects your income.

Our properties house teams from construction, engineering, rail, utilities and specialist contractors, giving you predictable usage and reduced wear compared to standard short-term lets.

With Direct Renting Ltd, you gain reliability, transparency and a hands-off system that keeps your property performing.
